## Optimum Solutions for your Pasture

Water Dynamics is a multi-national company specialising in all aspects of irrigation.

Our fully qualified engineers evaluate the topography of the site, available water resources, land use and any other specific needs relating to the site.

The design will include a combination of available options to ensure all resources are optimised for the best result.

### 1. SITE ASSESSMENT

An experienced consultant will visit the site, take core samples, evaluate the topography and water resources and discuss with you your specific requirements.

### 2. SYSTEM DESIGN

Our designers will prepare a detailed design based on the site assessment. They will fully specify reticulation requirements, pumping and equipment needed to meet your specifications.

### 3. INSTALLATION

We have our own install teams and project manage each installation to ensure it is completed to specification and on time. Proper installation is key to trouble-free, long term operation.

### 4. COMISSIONING

Our engineers will fully commission your system to ensure it meets your specifications and give you the peace of mind that our warranty offers.

PIVOTS

With over 50 years of dedication to the irrigation industry and with over 250 dealers worldwide, T-L can be relied upon to fulfill your pivot irrigation equipment needs. Centre Pivots, Linear Pivots and Corner Pivots.

EZI - RAIN

**EZI  
rain**

When looking for a reliable and economic irrigation option for small and medium sized farms, EZI-Rain, with quick tow hitch and large sprinklers, is a fantastic solution. Performs well in the wind and is robust and versatile.

TRAVELLING IRRIGATORS

*Southern Cross*

With over 20 years experience in the irrigation industry, Southern Cross have the know how and expertise to get the job done right the first time. We offer a range of travelling irrigators. SX10, SX20, SX30, SX2500, SX3500 TX 550.

HARD HOSE IRRIGATORS

**ORMA**  
S.H.L.

Orma was the first in the world to supply Stainless Steel Hard Hose Irrigators. They have the knowledge and experience to provide a functional, quality irrigation solution suited to your needs. Full range of sizes for pasture and turf.

Peace of mind = Optimum Irrigation Solutions with Extensive Warranty.
