

## A Robust, Portable 'Sprinkler' Irrigation System!

- **Heavy duty**, brass and galvanised steel components for extended life.
- **Larger sprinklers** and larger droplets for maximum performance in the wind, uniform watering and fewer shifts.
- **Auto pick-up** and release either end to reduce travel distance and time.
- **Pressure compensated** for hilly applications where required.
- **Flexibility** in design suits all property shapes and sizes.
- **Individual sprinkler valves** to allow for sprinkler isolation while system is operating.

## Typical Shift Rotation

**Water Dynamics** is a division of Tyco Flow Control. Affiliated companies are Prebensens PE Pipelines, Keystone Valves and Controls, Flexonics Industrial Hose, Tyco Water and Southern Cross Pumps, all suppliers of product to Water Dynamics.

## DESIGN

Through specialist design centres our qualified engineers can design a system to meet your specific requirements.

## SUPPLY

The scale of our operations allows us to source the most cost effective products both locally and internationally and pass on those discounts to our customers.

## INSTALL

With specialist installers working with experienced independent contractors we are well positioned to meet project timelines.

## COMMISSION

With skilled crews working from 8 branches, we offer professional and reliable programmed maintenance and service contracts.

Call Water Dynamics NOW  
for more information about  
Ezi-Rain.

# EZI rain

*“We chose Ezi-Rain because of the fewer sprinklers required, their durability and jet size. The sprinklers have performed very well during a difficult season.”*

-Derek Wilson, 77ha Dairy Farm Owner, Ashburton

*“Worth its weight in gold”*

- Paul Double, Property Manager
