

# Check Valves

**PVC Spring Check Valve  
Series 1011 & 1001**

**Use any place you want to stop backflow and syphoning: swimming pools, hot tubs, spas, solar installations, industrial applications, and potable water lines.**

- Maintenance free operation
- Tapered valve body design and enlarged valve chamber reduces chatter and turbulence
- Raised radius valve seat, a EPDM Seal for positive seal
- Stainless Steel Spring load of 1/2 and 2 lbs.

- Solvent weld or male and female thread connections
- Iron pipe sized -1/2" to 2"
- 200 PSI static pressure rating @ 72°F
- Excess Solvent trap: Designed to help prevent excess cement or softened material from entering into the body and sealing area during installation.

**PVC Spring Check Valves-Rated @200 PSI Static Pressure @ 72°F**
